Rating Action and Rationale

- EthiFinance Ratings downgrades Campari's rating from "BBB" to "BBB-", maintaining a Stable outlook.
- This rating downgrade is driven by the upcoming deterioration of Campari's main credit ratios over our forecast period, following an agreement (signed in February 2024) to acquire 100% of Courvoisier S.A.S., the owner of the major French cognac brand Courvoisier, for a total amount \$1.32bn (€1.22bn at the date of signing, of which €0.11bn related to an earn-out payable in 2029) on a cash free/debt free basis. This acquisition (expected to close in 2024) will be funded by a mix of debt, and equity, with the group having raised around €1.2bn in January 2024, of which €650m through a capital increase and €550m by issuing a convertible bond (with a maturity of 5 years). As a result, we expect Campari's EthiFinance Ratings-adjusted net leverage ratio pro forma the acquisition to rise substantially to 3.9x at YE24 (vs 2.9x at YE23) and then to remain above 3.0x over our forecast period (2024-2026). Nonetheless, we view this acquisition as positive from a competitive positioning perspective mainly since: i) it strengthens Campari's portfolio of global brands, both in terms of diversification and premiumization, by adding a world-renowned cognac brand; and ii) the group significantly expands its presence in the US (where 60% of Courvoisier's revenues are generated) with potential for significant growth in Asia over the long-term.
- The rating remains supported by: i) Campari's positioning as a major player in the global spirits industry, with a portfolio of over 50 premium brands (such as Campari, Aperol, Wild Turkey, and more recently Courvoisier) across the main categories; ii) good geographical diversification with a global reach, as its products are sold in around 190 countries (with its own distribution network in 26 countries); and iii) Campari's positive overall operating performance in the past few years, both in terms of revenue growth and profitability, leading to solid profitability margins (adjusted EBITDA margin of c. 24% in FY23).
- However, our rating is constrained by i) regulations regarding advertising and distribution of alcoholic beverages as well as tax increases on certain categories; ii) the discretionary nature of the industry's products, as the consumption of spirits may be negatively impacted by a significant deterioration of the overall macroeconomic environment; and iii) the significant concentration of the group's sales in global priority brands (c.57% of FY23 sales), such as Aperol (c.24%) and Campari (c.11%), since a sustained downturn in the sales of these products could impact significantly total sales.
- The beverages subsector has medium-to-high ESG risks under our methodology (sector heatmap score between 3.5 and 4), slightly constraining our industry assessment. Regarding environmental factors, the industry has a low impact on climate and biodiversity, but has some impact on pollution linked to the use of glass and plastic bottles. However, the sector raises significant health issues around sugared soft drinks and alcoholic beverages. In particular, the latter can have a higher impact on consumers' health compared to "regular beverages", with alcohol-related harm being a major public health concern (responsible for c.255-290k deaths each year across EU countries, according to the WHO). In addition, legal and regulatory constraints from state authorities (including changes in regulations relating to production, distribution, importation, marketing, advertising, pricing, packaging) may have a negative impact on the financial performance of a company operating in this subsector.
- Our assessment of the company's ESG policy is positive (company ESG score of between 0 and 1), with governance and environmental scores generally favourable, while the social score remains low, negatively impacted by year-on-year increases in employee turnover and accident frequency rates. Regarding environmental criteria, we highlight the significant year-on-year decrease in Campari's energy and water consumption respectively resulting from energy efficiency investments in its production sites and the launch of a "water reduction programme" to optimize water use. Campari's very good governance assessment mainly reflects the existence of a business conduct and anti-corruption policy, a good analysis of ESG issues (including the prioritization of ESG issues), and the separation of the roles of chairman and CEO. Therefore, our assessment of the company's ESG policy impacts positively our financial assessment, and more than offsets the effect of our industry assessment.

Issuer Description

Founded in 1860, Campari is a major player in the global spirits industry with a well-diversified portfolio of over 50 premium and super-premium brands across the major categories, including aperitifs, vodka, whisky, tequila, rum, gin, and cognac. Its brands are categorized into global, regional, and local priority brands based on their business priority, geographic scale, and growth potential. Global priority brands represent more than half of the group's sales (c.57% of FY23 revenues) and include brands such as Aperol (c.24%), Campari (c.11%), and Wild Turkey (c.8%). Campari owns 22 manufacturing facilities worldwide (including distilleries and bottling plants) and its products are marketed and distributed in around 190 countries across the globe, with its own distribution network in 26 countries, also called direct markets (c.93% of revenues in FY23), where it sells directly to retailers and wholesalers. The group employed c. 4.7k people at YE23. Campari has been listed on the Italian Stock Exchange since 2001 and has a market capitalization of €11.8bn (market close on March 15, 2024). Lagfin (the holding company of the Garavoglia family) controls 51.3% of Campari.

For 2023, Campari generated revenues of €2.9bn (+8.2% yoy), and adjusted EBITDA of €699.2m (+9.4% yoy), equivalent to a 24.0% margin (vs 23.7% in 2022). The consolidated EthiFinance Ratings net leverage ratio was 2.9x at end-2023 (vs 2.6x at end-2022).

Rating	BBB-

Rating Sensitivity

• Long-term rating positive factors (↑)

A rating upgrade could be possible with a sustained improvement in Campari's financial profile, particularly if the group manages to deleverage faster than expected following the acquisition of Courvoisier. For the same business risk profile, a decline in the group's EthiFinance Ratings-adjusted net leverage ratio to below 2.8x, for a sustained period of time, could entail a long-term rating upgrade to BBB.

• Long-term rating negative factors (↓)

A rating downgrade could be entailed by a sustained deterioration in Campari's financial profile, which could be a consequence of a more aggressive financial policy and/or if the group is unable to deleverage following the acquisition of Courvoisier. For the same business risk profile, an EthiFinance Ratings-adjusted net leverage ratio above 3.5x for a sustained period of time could entail a long-term rating downgrade to BB+.

Sources of information

The credit rating issued in this report is unsolicited. The credit rating is based exclusively on public information, being the main sources the following:

1. Annual Audit Report.
2. Corporate Governance Report.
3. Corporate Website.
4. Information published in the Official Bulletins.

The information was thoroughly reviewed to ensure that it is valid and consistent, and is considered satisfactory. Nevertheless, EthiFinance Ratings assumes no responsibility for the accuracy of the information and the conclusions drawn from it.
